

AAX_IController

```
graph BT; AAX_VController --> AAX_IController;
```

The diagram illustrates a class hierarchy. At the top is a gray rectangular box labeled 'AAX_IController'. Below it is a white rectangular box labeled 'AAX_VController'. A blue arrow points vertically from the top of the 'AAX_VController' box to the bottom of the 'AAX_IController' box, indicating that 'AAX_VController' inherits from or implements 'AAX_IController'.
