The diagram illustrates a call graph where two different functions, both originating from the `AAX_FastInterpolatedTable` namespace, call a common target function `AAX::FastTrunc2Int32`. The first function is `Lookup::DoTableLookupExtraFast`, and the second is `Lookup::DoTableLookupExtraFastMulti`. Both are represented in white boxes with black borders, while the target function is in a grey box with a black border. Blue arrows indicate the direction of the calls from the source functions to the target.
