

AAX_IMIDIMessageInfoDelegate
::ToString_AppendNumber

AAX_CNumberDisplayDelegate
::ValueToString

AAX_CString::AppendNumber

```
graph LR; A["AAX_IMIDIMessageInfoDelegate::ToString_AppendNumber"] --> C["AAX_CString::AppendNumber"]; B["AAX_CNumberDisplayDelegate::ValueToString"] --> C;
```

The diagram illustrates a common dependency or inheritance relationship. Two methods, `AAX_IMIDIMessageInfoDelegate::ToString_AppendNumber` and `AAX_CNumberDisplayDelegate::ValueToString`, are shown on the left. Both have blue arrows pointing to a single method, `AAX_CString::AppendNumber`, which is highlighted in a grey box on the right. This suggests that both delegate methods rely on or delegate the task of appending a number to the `AAX_CString::AppendNumber` function.
